Yosemite National Park, one of the first wilderness parks in the United States, is best known for its waterfalls, but within its nearly 1,200 square miles, you can find deep valleys, grand meadows, ancient giant sequoias, a vast wilderness area, and much more. Camp or stay at a luxury hotel for a beautiful weekend.

The magnificent Monterey Peninsula has been called the greatest meeting of land, sea and sky and is recognized as an ideal vacation and business destination. While it is a given that the natural beauty of the area draws the visitor, it is the great hot deals in lodging provided by Monterey hotels and endless activities including golf, biking, sailing, wine tasting and dining in restaurants that keep one coming back.

Muir Woods. The Muir Woods National Monument, located 12 miles north of San Francisco's Golden Gate Bridge, celebrates a majestic forest of old growth Coast Redwoods. The Coast Redwood is the tallest tree on earth. It can reach unparalleled heights of over 386 feet. The tree's base diameter has been measured at over 30 feet. A visit to Muir Woods National Monument offers a humbling introduction to Nature's phenomena. More than just the tallest and widest trees on earth, Coast Redwoods are among the oldest living things on the planet. At Muir Woods National Park, you will walk through a forest of giants, many of which are over 1,000 years old.
